Primary Care Training Hub

LIVE 'Hot Topics' GP Update Spring 2024 Course Webinar

Saturday 9th March 2024 9:30am – 1:00pm

NB Medical is delighted to once again be working with Shropshire, Telford & Wrekin Primary Care Training Hub to provide you with a LIVE, fully interactive, Hot Topics GP Update Spring 2024 course webinar on Saturday 9th March 2024.

For over 25 years, NB Medical has been the market leader in running GP Update courses in the UK and Ireland, with over 20,000 GPs attending our courses per year. We are passionate about primary care, and committed to helping busy primary care professionals practice evidence-based medicine in an easy, time efficient way. Our teaching is focused on the patient, the problems they bring us and how best we can help them.

The Hot Topics GP Update course will update you on the latest developments in the literature and serve as a platform for CPD to help you to deliver better patient care.

COURSE INFORMATION

OVERVIEW

The “Hot Topics” course consists of a series of short ‘TED-style’ engaging presentations blending evidence and cases, followed by discussion which may have an impact on your practice. The course comes with a number of extra resources to give it incredible ‘added value’

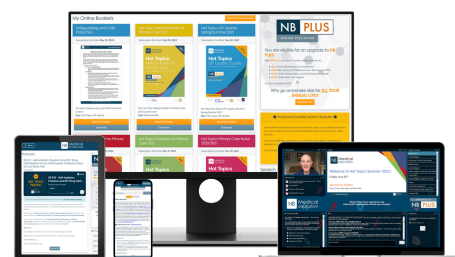

COURSE REFERENCE BOOK

Prior to the event, your course reference book will be posted to your address. The book is fully referenced with recent summaries of the evidence for approximately 150 clinical Hot Topics commonly seen in primary care. Most of our delegates use this every day, like they use the BNF. All of the material is up to date and the material is completely 100% independent from any external influence.

ONLINE CONTENT

12 months access to the on-line electronic version of the book which is instantly searchable. All the original references and resources for GPs (e.g. links to on-line clinical calculators) and patients (e.g. patient information leaflets) are hyperlinked and just one click away.

NB MEDICAL APP

The NB Medical App giving you access to the content from your course day in a fully searchable mobile friendly format on both iOS and Android devices.
